Thanks. Those are the ones I need. The others for Appendix D can just be provided with revised RI.

Kristine -

We understand this request so no need to discuss. This one will take a little time though, so it will probably be early next week (we'll shoot for Monday) before you see them. We will prioritize the IC tables.

Jim – I'm currently working on the mobile sediment section (sediment traps) and was looking at the tables 5.2-1 through 5.2-4. I compared those to tables H3.1-7 and H3.1-8. I originally thought that the summary statistics were the way to go, but in looking at the information and presentation, I would rather keep the Appendix H tables and have Integral create similar tables for each quarter of the 2006/2007 sampling event. Again, these tables are to only include the ICs – could include TOC, too. Like tables would be needed for Appendix D for key contaminants not discussed.

Let me know if you need to discuss. The sooner I could get these, the better so that I can continue my edits.

Thanks,

Kristine Koch
